ZONES®

Accelerate Retail Transformation with Zones

 Premium
Business Partner Authorized
Service Provider

Retail IT is complex, costly, and hard to scale.
Zones simplifies it all through:

- Turnkey deployments for faster openings
- Modern hardware and intelligent software to streamline operations
- AI-driven insights for predictive support and smarter inventory management
- Global project management to help every store open faster and operate smarter

TECHNICAL ASSESMENTS	DESIGN & DEPLOYMENT SERVICES

MAC READINESS:
Run MEU (Mac® Evaluation Utility) on all VLANs validating access to Apple® services and confirming connectivity for deployment and support.

EPM DESIGN/DEPLOYMENT:
EPM services built on the Apple Platform Deployment Framework (APDF) to deliver an optimal solution for end-to-end device lifecycle management, ease of access, security, and audit compliance.

WIRELESS NETWORK ASSESSMENT:
Analyzes the wireless environment for optimized connectivity, interference, and best practices.

NETWORK & WIRELESS DESIGN/ASSESSMENT:
Multi-faceted Network Modernization Service that helps enterprises to optimize performance for Apple devices across the entire network (Wired, Wireless, SD-WAN, VPN, and Network Security Services).

ENDPOINT MANAGEMENT (EPM) ASSESSMENT:
Assess for overall strategy, configuration, and management of all Apple devices in the ecosystem.

APPLE BUSINESS MANAGER (ABM) DEVICE ENROLLMENT:
Facilitate creating and configuring the ABM instance, providing guidance on best practices assisting with Identity Provider (IDP) as needed for the overall EPM strategy for zero-touch deployment.

NETWORK SECURITY ASSESSMENT:
Review the existing security strategy, roadmap, and audit controls to identify vulnerabilities and gaps.

SOFTWARE ASSESSMENT (APP GAP ANALYSIS):
Identify cost savings and optimize utilization through analysis of corporate applications and review of licensing, device, and cross-platform challenges.
